

ZEPPE GEAR SAFETY JACKETS

PRIMEGRIP

PROBLEM

Wise men know that seasons come and go, but work never stops. That is why we are dedicated to making sure that tradespeople have all the gear they need to work safely and comfortably come rain or shine. Or snow and ice. When a brilliant ironworker named Pete Zeppetella came to us and presented a solution to a very common problem, we knew that it was something we had to be a part of.

In the winter, tradespeople working at heights are putting their common work jackets on top of their harnesses to protect themselves from the elements. These jackets either have zippered slits to pull out the D-ring and lanyard or the workers cut slits into the back of the jackets for this purpose. This is costly because the slit can spread over time, rendering the jacket useless. This is uncomfortable because the jackets are not designed for a bulky harness underneath. Most importantly, this is highly unsafe because in the event of a fall, the harness and the jacket are pulled back, constricting the airway of the worker and causing serious consequences.

SOLUTION

Pete's very simple solution to this problem was a patented jacket design with a tear away flap in the back. The flap is held closed by Velcro strips that open immediately when a fall occurs. This allows the back of the jacket to be pulled back by the harness without the front of the jacket choking the worker.

Scan the QR code to see the jacket in action!

PRODUCT FEATURES

- 1 Velcro tear-away flap
- 2 Velcro adjustable elastic cuff
- 3 Velcro adjustable waist
- 4 2 inner and 2 outer microphone loops
- 5 2 microphone cable guide zippers
- 6 2 lanyard loops
- 7 4 outer and 2 angled inner pockets
- 8 2 radio pockets
- 9 Pencil holders
- 10 2 hard hat loops

All jackets conform to following safety standards:

CSA-Z96 09 Class 2 Level 2

ANSI 107-2010 Class 3 Level 2

HI-VISIBILITY COMFORT FIT

This Hi-Visibility model features 3M Scotchlite reflective material to make sure workers are clearly visible and meet construction regulations on the job site. The comfort fit design incorporates Velcro straps at the hem to adjust the jacket to fit slightly wider or narrower hips. The long tail prevents exposure to the elements when reaching up or bending.

SIZING CHART (INCHES)

SIZE	PART #	FRONT	BACK	CHEST	WAIST	ARM	SHOULDER
S	23-011	29	31	25	23	28.75	20.5
M	23-012	30	32	26	24	29	21
L	23-013	31	33	27	25	29.25	21.5
XL	23-014	32	34	28	26	29.5	22
XXL	23-015	33	35	29	27	30	22.5
XXXL	23-016	33.5	35.5	29.5	27	30	23

BLACK COMFORT

For trade professionals who don't require Hi-Visibility on site, this model provides all the great features of the Zepps Gear jacket in a cool midnight black. The comfort fit design incorporates Velcro straps at the hem to adjust the jacket to fit slightly wider or narrower hips. The long tail prevents exposure to the elements when reaching up or bending.

SIZING CHART (INCHES)

SIZE	PART #	FRONT	BACK	CHEST	WAIST	ARM	SHOULDER
S	23-030S	29	31	25	23	28.75	20.5
M	23-030M	30	32	26	24	29	21
L	23-030L	31	33	27	25	29.25	21.5
XL	23-030XL	32	34	28	26	29.5	22
XXL	23-030XXL	33	35	29	27	30	22.5
XXXL	23-030XXXL	33.5	35.5	29.5	27	30	23

WOMEN'S COMFORT

The construction products industry tends to overlook women's needs when designing their products. We wanted to make sure that we cater to the sisterhood and this model does just that. The specially tapered silhouette was meticulously designed after careful research on different body types and we know the ladies are going to love it. The comfort fit design incorporates Velcro straps at the hem to adjust the jacket to fit slightly wider or narrower hips. The long tail prevents exposure to the elements when reaching up or bending.

SIZING CHART (INCHES)

SIZE	PART #	FRONT	BACK	CHEST	WAIST	ARM
S	23-031S	27	27.5	20.5	22.5	26
M	23-031M	27.5	28	22	24	26.5
L	23-031L	28	28.5	23.5	25.5	27

MEN'S BOMBER

For the more style-conscious among us, the Men's bomber offers a stylish variation on the Zepps Gear jacket. This model will look equally good on the site and on the street. The base features a classic bomber hem that stretches to fit slightly wider hips and accommodates sitting comfortably.
